

**APPENDIX I: TRAINING DOCUMENTATION PERFORMED UNDER ASP 11-037**

To ensure that animal-related training performed under ASP 11-037, “Training in Current Biomethodology,” is reviewed by the PI [Dr. Raja Sriperumbudur] and captured for ACUC recordkeeping purposes, all individuals that conduct training [please see the procedures outlined below that require notification] are required to send an e-mail in advance to the ACUC Office with the following information [it is recommended to send the notification at least seven business days in advance in case designated member review is required]:

- *Name of trainer*
- *Name of trainee*
- *Procedure[s]*
- *Date of training*
- *Pending ASP that will include the procedure*

Upon receipt, the ACUC Coordinator will verify ASP coverage and provide the e-mail to the PI for review/action.

\* If individual has been trained and released from Post-Approval Monitoring [PAM] on any ASP for the procedure[s] listed then no further training or PAM is required.

<b>Procedures That Require Notification/Training</b>	
<i>*Once an individual is trained and ready to perform a procedure, please contact LAM to schedule a follow-up observation of the procedure.</i>	
<p style="text-align: center;">Gavage                      Blood Collections [Only Cardiac Puncture Requires Notification]                      Euthanasia [Only Decapitation, Cervical Dislocation, and Frog Euthanasia]                      Osmotic Pump Implant                      Mammary Fat Pad Clearing                      Castration/Vasectomy                      Ovariectomy                      Total Body/Brain Perfusion                      Splenectomy                      Thymectomy                      Tumor Excision                      Tumor Implantation [Surgical]-case by case basis</p>	<p style="text-align: center;">Intra-rectal Administration                      Colonoscopy                      Renal artery/vein/urethra distal clamp procedure                      Partial Hepatectomy                      Intracranial Inoculation                      Embryo Transfer                      Intracardiac Injection                      Sub-renal Capsule Assay                      Nephrectomy                      Other Proposed Survival Surgical Procedures</p>

Please note that at this time only the following individuals are permitted to conduct animal-related training on ASP 11-037 [procedures authorized for each individual are at the discretion of the LAM veterinary staff]:

Julie Bullock  
 Dan Logsdon  
 Chris Perella  
 John Carter  
 Lisa Riffle  
 Tim Back  
 Les Stotler

Melinda Hollingshead  
 Darlene Green  
 Tamara Morgan  
 Gayle Disalvo  
 Amy Qian  
 Roackie Awasthi  
 Suzie Borgel

Nicole Roberts  
 Misty Hawes  
 Raja Sriperumbudur  
 Herb Hagenau
