

Condition	Treatment	Comments
Eye lesions	Triple Antibiotic Ophthalmic Ointment ONLY	Apply a small amount directly from the tube at least twice daily
Bite wounds (mild to moderate)	<ol style="list-style-type: none"> 1) Separate aggressor (if can be identified) 2) Clean wounds with 2% Dermachlor Rinse and apply CVS Triple Antibiotic + Pain Relief <p style="text-align: center;">OR</p> <p>If wounds are on the face use Triple Antibiotic Ophthalmic Ointment ONLY</p>	
Rectal Prolapse	<p>For mild to moderate:</p> <ol style="list-style-type: none"> 1) Give wet feed 2) Change to cage with soft bedding 3) Apply a thin layer of PreparationH Hemorrhoidal Cream at least DAILY 4) Re-evaluate within 5-7 days 	<ol style="list-style-type: none"> 1) Mild: Barely noticeable (<1mm) of moist, inflamed tissue protruding from the anus 2) Moderate: <3mm of moist, inflamed tissue protruding from the anus; No active bleeding; Mouse is otherwise healthy and normal 3) Severe: Animal will exhibit one or more of these clinical signs; >3mm moist, inflamed tissue protruding from the anus; active bleeding; dried blood; dry tissue
Ulcerative Dermatitis (mild to moderate)	<ol style="list-style-type: none"> 1) Clean skin with 2% Dermachlor Rinse or apply 1% Dermachlor Antiseptic Ointment 	Apply a small amount at least daily
Penile Prolapse (able to urinate)	<ol style="list-style-type: none"> 1) Remove male from breeding cage, if necessary and place in a cage with soft bedding 2) Apply lubricant/ointment 3) Monitor closely for normal urination 	If mouse is unable to urinate, it must be euthanized within 1 hour

Malocclusion (mild to moderate)	<ol style="list-style-type: none">1) Give wet feed2) Trim teeth at least every 7 days3) Monitor weight	Malocclusion is a serious health concern, usually seen as a failure to grow and thrive. In many strains of laboratory animals, this is due to a genetic trait, therefore, we strongly discourage breeding these animals. These animals require life-long monitoring every 7 days and regular trimming of the overgrown teeth.
