

YOUR SAFETY IS IMPORTANT TO US

NCI at Frederick/FNLCR Construction

- 20% of work fatalities and 12% of disabling injuries occur in the construction industry
- OSHA was developed over concern from the frequency and the extent of hazard and accidents in the workplace

Safetymatters

- At the NCI at Frederick, we want to ensure that workers comply with OSHA standards in an effort to eliminate hazards and accidents
- We want you to work safely and go home without incident at the end of the day
